

Tricia J Robertson

Author **‘Things You Can Do When You’re Dead’ and
‘More Things You Can Do When You’re Dead’
‘It’s Life and Death, but Not As You Know It’**

Tricia’s books have been very well received, earning five star reviews on Amazon.

A former teacher of mathematics and physics Tricia was a long term council member of the Scottish Society for Psychical Research, having been on the original council, Secretary, Treasurer, past Vice President and a Past President of this Society.

She was a tutor for the Department of Adult and Continuing Education (DACE) at the University of Glasgow. In conjunction with Professor Archie Roy she provided a session programme of 20, 2 hour, lectures per session for DACE in a series entitled “An In Depth Study of Psychical Research.” This course ran for six years examining- The paranormal- what is the evidence?'

In addition to 30 years of experience in investigating spontaneous cases Tricia has appeared on various TV programmes, usually documentaries and on radio programmes including three appearances on America’s Coast to Coast, UK’s Radio City, USA Darkness Radio, Celtic Radio, Beyond 3D, Hayhouse Radio, Talk Radio, Past lives podcast, Radio out there, Outer limits and The unexplainedtv.com, many times. She has also been invited, over many of years, to speak to varied organisations throughout the U K. and abroad. These invitations continue.

She has written the forward to Dr Mark Ireland’s highly successful book Soul Shift and has text included in his book Messages from the Afterlife, written an endorsement for The Galilean Pendulum, Till Death don’t us Part, and some of her comments are on the back cover of Trevor Hamilton’s book Tell my Mother I am not Dead.

Tricia is known as an interesting and exciting speaker on many topics concerning psychical research, which is reflected by the invitations that she receives from varied avenues, including Psychical Research Societies her and abroad, The Churches Fellowship for Spiritual and Psychic Studies, The Quakers, The Unitarian Church, Mensa at Malvern, The Glastonbury Symposium and the Open University.

Research

Along with many television appearances, normally in documentaries, since 1990 she has also prepared and presented many papers to the SPR and other International Conferences..

She is the co-author, with Professor Archie Roy, of three published papers on the study of information provided by mediums. These papers follow a five-year study of controlled experiments in conditions up to triple blind. The results of these studies are published in the JSPR April 2001, January 2004 and July 2004.

Tricia was a founding member, and Hon Sec of PRISM, Psychical Research Involving Selected Mediums, 1994- 2008.

She has also completed a four/five year in depth study of exceptional ostensible paranormal healing which started 2006 and which produced some spectacular results. Some of these results would appear to indicate a form of psychic surgery.

She has also completed a report on a 6 year old boy in Scotland, who, from when he could speak, remembers details of a previous life.

Apart from three published peer reviewed papers in the JSPR, she has articles published in many journals including the journals of the Swedish and Norwegian Societies for Psychical Research.

Tricia is passionate about the best evidence gathered in various aspects of Psychical Research, and does not suffer fools gladly who will not address specific points of evidence in any particular avenue.

While accepting that some people may be deluded in some aspects of experience, it is absolutely certain that there are genuine cases in nearly every aspect of paranormal claims whether they illustrate survival or not. But there **is** a wealth of evidence out there which leads to survival of consciousness undeniably being the best explanation for the phenomenon. That is, for those who really want to listen.
